SCREW COPYING PRESSES

OF THE BEST MANUFACTURE.

FOLIO SIZE capable of taking Copies 8½ inches by 13 inches, the largest size in ordinary use.

These presses are from Mordan's celebrated Manufactory, and may be depended upon as proof to any amount of manual pressure. The working of them is very light, owing to the screw being extra stout, and cut with a double thread fitting into gun Metal boxes, which are so fixed as to be removed with ease, when required, for the purpose of cleaning and lubricating.

The whole of the metal work in these Presses is of wrought-iron and the pressing beds are planed *perfectly true.* Each Rs. 150.

FOOLSCAP COPYING PRESSES.

Size of bed 15 inches long, by 10½ inches broad, made by the same maker, and can be warranted.

The quality of the metal, its preparation, fit, &c., are precisely similar to the above (folio size.) Each Rs. 100.

SECOND QUALITY FOOLSCAP.

Same size as above (15, by 10½), but of thick heavy iron (not wrought).

These presses work very well for light work; the pressure is not equal under the same power as those above priced. Rs. 60 each.

LETTER SIZE PRESSES.

MORDAN'S BEST MAKE.

Size 12 inches long by 10 inches wide—full size for letters Each Rs. 70.

COPYING Books for the above lettered for Index containing 1,000 pages each from Rs. 4 to 8.

STEEL PENS OF EVERY KIND.

The celebrated S PEN in three degrees of Lexibility, each box stamped Broad, Medium, and Fine—per box of one dozen with Holder complete, annas 12.

MITCHELL'S N PEN as above:—three degrees of line, viz. Broad, Fine and Medium, each box containing one dozen with Holder complete, each annas 12.

HERBERT & Co always keep in stock every requisite for the Office, Library, Desk, Travelling Desk, &c. &c.

N.B.—Some of the above Presses have Stands which can be purchased separately if required: the prices are for the Machine P ess only.

STATIONERY, ARTISTS' MATERIALS, &c.—Just opened, LINEN BOOK PAPER, some of the best and newest available, in two colors—Blue and White; the packet containing half a ream in a box. Rs. 2-8.

Envelopes to match both colors, in boxes of 100 each, Rs. 1.

ST. ANDREW'S LIBRARY, BOMBAY,
THACKER, VINING & Co.

MUSIC.

MESSRS. THACKER, VINING & Co. continue to receive a monthly consignment of the newest Music, both Vocal and Instrumental, and have now on hand a selection of the most popular Airs and Songs of the day

PIANOS.

Messrs. THACKER, VINING & Co. expect to receive by the ship *City of Carlisle*, now nearly due, a consignment of Collard & Collard's best PIANOS, and should the experiment answer they will continue periodically to receive similar supplies; among the Instruments those specially to be recommended are the following:—

A solid Mahogany Bondoir Grand Piano, 6½ octave, patent repeating action, raised top, carved legs, brass bound metal tin, and block with leather cover, hammer, and fork complete.

A solid Mahogany new Square Semi-Grand 6½ octave patent repeating action, raised top, transverse bass strings fre work OOG ends, carved legs, metal pin block, bolted and screwed with leather cover, hammer, and fork.

A solid Mahogany Grand Square 6½ octave, patent repeating action, raised top, carved legs, metal pin block, wood in fitted and screwed, with hammer, fork, and leather cover.

N. B.—The above Instruments were selected by a thoroughly competent judge, and it may be confidently stated that few if any equal to them for equality of touch and brilliancy, have ever been of manufacture have ever been consigned to this country. The consignment is an experimental one made in order to ascertain whether first class Instruments will find a ready sale in this country.

BOMBAY MARKET REPORT.

BOMBAY, 13th *November* 1863.

DURING the early part of the fortnight, our market for *Cotton Piece Goods* was in a very excited state and extensive speculative operations were entered into both for ready goods and for arrival, causing an immediate advance in rate, of one to two rupees per piece; but latterlys however, things were looking rather quieter, owing to the extreme dearness of money, and within the last five or six days, business has been entirely suspended on account of the Dewallee Holidays, the dealers devoting all their time to the settlement of their accounts. Transactions throughout have been confined to the speculators, the clearances for actual consumption being rather very moderate; but importers are very firm in anticipation of a good demand for the Interior, as it is reported that there are considerable orders in the bazar only held in suspense in consequence of the present position of the money market. *Yarns* are very brisk. *Metals* in limited request.

Our Export Market has continued active and a fair amount of business has been done in *Cotton* at an advanced price. In *Seeds*, transactions have been rather limited.

IMPORTS.

COTTON PIECE GOODS.—*Grey Shirtings* of all kinds have continued in good demand at advanced rates; 40 in. 6 to 8½ lbs. have changed hands to a considerable extent, and our stock chiefly consists of these weights; other descriptions being all very scarce and in demand at extreme rates. *Grey Madapollams* have been dealt in to a moderate extent at a small advance for good makes; stocks are moderate. *Grey Lacconeis* are not much in request, and prices remain firm. *Grey Mulls* have a moderate demand at steady rates. *Grey Printers* continue scarce and fetch higher rates. *Grey Domestics* in good request: stocks are much reduced. *Grey Longcloths* continue extremely scarce and much wanted. *Grey T Cloths* have a much improved demand at dearer rates.

Bleached Goods have been receiving some attention from the speculators, and prices shew considerable improvement.

Dyed and *Printed Goods* and *T. Red Goods* have attracted but little attention, but prices are very firm.

The transactions of the fortnight comprise:—

(From the 28th ultimo to the 12th instant inclusive.)

			Grey Shirtings.	Rs.	A.	P.

METALS.—The enquiry for *Copper* has again revived, particularly for *Braziers*, *Sheathing*, and *South American* which are quoted dearer; other descriptions have not participated in the rise, but rates are maintained. *Iron* is dull and heavy in stock, but rates are unchanged. For *Steel* the enquiry is limited, and rates, though unaltered, have a downward tendency. *Lead* is steady; *Sheets* have receded in value, *Pigs* are unaltered. *Tin Plates* remain at Rs. 11 to 12 per box, and *Spelter* at Rs. 9 to 10½ per cwt. Sales are:—

500	Cwt.	Copper Sheathing	at Rs. 60	8	0 p.cwt.
400	,,	,, Braziers	,, 66	0	0
500	,,	Do.	,, 67	0	0

COALS have a moderate demand.
COCHINEAL continues dull.
SAFFRON in good request.

EXPORTS.

COTTON.—The market has been kept in a state of excitement consequent on the successive advices from Liverpool reporting a brisk demand for cotton at advancing rates in that market. The European Houses have abstained from business consequent in the sudden rise of prices, and the Natives continue the principal shippers. For ready cotton, business has been rather limited, owing to the tightness in the Money Market, while speculation has been very wild, and extensive contracts have been entered into for delivery of *Dhollera* next May at Rs. 700 to 730 per candy. Sales reported are:—

200	Bales	Dholleras	695	per candy.

WOOL.—There has been a good enquiry for wool at an advance of Rs. 10 per candy. Supplies from the Interior are coming in freely.

SEEDS.—*Linseed* is in active demand, and a large business has been done by speculators which has caused prices to run up to Rs. 7¾ per cwt. *Rapeseed* has also advanced, being worth Rs. 6¾ to 7 per cwt. *Teelseed* is worth Rs. 38 to 40 per candy.

COFFEE of all kinds is limited in stocks, and rates are unaltered. *Malabar* is quoted Rs. 11 to 11½; *Berbera* Rs. 14½ to 15; and *Mocha* Rs. 13 to 16.

HEMP is actively enquired for at dearer rates.

SALTPETRE and MADDER-ROOT do not shew any material change.

MONEY MARKET AND EXCHANGE.

For money there exists a very active demand, and the market has become much tighter. The cash balance of the Bank of Bombay is very much reduced, and loans could hardly be procured even on the best Securities.

GOVERNMENT SECURITIES have little or no enquiry, and rates are tending downwards; they are nominally quoted as follows: *Fours*, Rs. 95; *Five Fives*, 104; and *Fives-and-a-half*, Rs. 113½.

EXCHANGE on England has advanced nearly three per cent., and close firm at 2s. 1½d. for *Bank Bills*; 2s. 2d. for *Credits*; and 2s. 2¼ for *Documents*.

On Calcutta, large business has been done at three per cent. discount for sight Bills.

On China, the rate is Rs. 218 for 100 dlrs. for 60 days' sight Bills.

FREIGHTS.

(From Blay and Mackintosh's Freight Circular.)

DURING the fortnight which has elapsed since the date of our last report, a further advance has taken place in Cotton Freights, and for Liverpool the demand for tonnage continues active. *For London.*—Cargo offers in moderate quantities. *For Liverpool.*—One vessel has been taken up for cotton. We quote:—

Liverpool...Cotton...£3-15-0 to £4- 5-0
Seeds.... 2-10-0 to 2-12-6
London ...Cotton...£3-10-0
Seeds... 2-12-6

For Liverpool.—The news received via Galle a few days since and also by the direct Mail which arrived on 10th instant, reports a further important rise in the Cotton market. This has stimulated the demand for tonnage, and notwithstanding the large numbers of ships on the berth, an advance has again taken place, and the present high rates are steadily maintained. For room in ships under immediate dispatch £4-5s. is readily paid and 2-12-6 for Seeds.

The following engagements are reported. *Sir John Maudville*, 1378 tons, commenced at £3-12-6d. *Bates Family*, 2,153 tons, *Beeston Castle*, 1,005 tons, *India*, 1,163 tons, *Maharatta*, 793 tons, *Mussouri*, 811 tons, *Pera*, 1,435 tons, *Sarah Sands* 818 tons, *Summerlee*, 896, tons, have made engagements in Cotton, at from £3-15-0 to £4-0-0, while in the *City of Brussels*, 990 tons, *Hahneman*, 1,328 tons, *Orissa*, 629 tons, *Canova*, 1,282 tons, *Lady Havelock*, 855 tons, *Helen Scott*, 1,117 tons, *Salsette*, 1,357 tons, and *Thythoma*, 1,152 tons; business has had effect at £4-0-0 to £4-5-0.

For London.—The *Gloriana* is still the only vessel on the berth, and is filling with moderate speed. Cargo is offering more freely, and a first class ship would fill rapidly at advanced rates.

For Havre. The French ship *Duc de Malakaff*, 455 tons, has been chartered at frs. 112½ for a full cargo. The other ships in the berth are filling.

From Cochin to London.—Vessels of moderate size are much enquired for, and could meet with remunerative engagements.

For Calcutta and back.—Rs. 22 per ton with port charges is offered without inducing business, the rates for the home voyage being so much relatively higher.

American Tonnage continues quite out of demand.

Prospects of course depend on the result of the American War, and at present everything points to its continuance, the recent disasters to the Southern forces having been retrieved in a great measure by the lately reported victories. The amount of tonnage in port and expected is considerable, but as we are now in the height of the shipping season, and Shippers are pressing their Cotton rapidly forward, a maintenance at least of present rates may reasonably be looked for.

The amount of tonnage in port as compared with the last two years is as follows:—

	1861.	1862.	1863.
Liverpool...Tons	8,810	21,632	40,561
London..... ,,	4,229	2,222	793
Elsewhere ... ,,	10,898	4,582	6,829
Not Fixed ... ,,	23,964	19,568	11,602
Total...Tons	47,901	48,004	59,785

The *Arrivals* have been 3,508 tons, and the *Departures* 13,578 tons.

Shipping.

BOMBAY.

DEPARTURES.

DATE.	SHIPS.	COMMANDERS.	To
Nov. 12	Johnston Castle (s)...	Main	Surat.

PASSENGERS SAILED.

Per steamer *Johnston Castle*, to Surat—Lieut. Hancock, R. Artillery.

PORT CLEARANCE.

Steamer *Johnston Castle*, A. Main, bound to Surat, obtained her port clearance yesterday.

COMMENCED LOADING.

Steamer *Pioneer*, for Kurrachee and Veraval.
Steamer *Viola*, for Penang Singapore and Hongkong.
Ship *James Smith*, for Liverpool.

Steer, Ensign C. D., 33rd Regt., to join, to Poona.
Hancock, Lieut. G. E., R. Artillery, on duty, to Surat.
Gemmico, Lieut., Deputy Quarter Master General on duty, to Poona.

GARRISON ORDERS.—NOV. 12TH 1863.

BY BRIGADIER GENERAL T. TAPP, C.B.

1. With reference to Garrison Orders, para 5, of the 31st ultimo, the Officer Commanding 103rd Regiment, will be pleased to send Gunner Carroll and wife to the General Depot, Khardalla, by this evening's train in view to application being made to allow the Gunner to draw his pension in England.

2. A Native Garrison Court Martial composed as follows, will assemble on Saturday next the 14th instant at 11 A.M. at the Mess-room 18th Regt. N. I., for the trial of Fifer Sur

however important a station Kurrachee may be, it is not yet quite half so important as Bombay, which, therefore, ought always to have at least two Chaplains of this persuasion one of them to be temporarily available for Kurrachee, when there is no regular chaplain there, or for Belgaum, or any other station where there is a sufficient number of Presbyterian servants of Government to justify a Chaplain being sent to them. The removal of Mr. Middleton will be very much felt by the St. Andrew's Church congregation in Bombay.

PROGRAMME of the pieces of Music to be played by the Band of H. M.'s 18th Regiment N. I., on the Esplanade, this evening :—

Quick Step March .....Basquit.
Overture.—"Le Macon" .....Auber.
Waltz.—"Donna Julia" .....Laurent.
Selection.—"La Favorite" .....Donizetti.
Quadrille.—"Off to Charlestown"...D'Albert.
Polka Mazurka .....Billema.
Galop.—"Champagner" .....Lumbye.

THE WEATHER AND THE CROPS.

For the fortnight ending 31st October.

SATTARA.—Mr. Chapman, the Collector of Sattara, reports that the fall of rain was general and sufficient in all the Talookas of the Collectorate, with the exception of some villages in the districts of Waee, Wallina, Phalee Mahal and Punderpoor, where it had been scanty and partial. The khureef crops with the exception of those in villages not visited by rain were in good condition, and such of them, as had become ripe, were being reaped. The sowing of the Rubee crops had been completed, and the young plants that had sprung up were in good condition.

AHMEDNUGGUR.—It appears from the weather report of this Collectorate, that the rain has proved beneficial and has enabled cultivators to complete the sowing of the rubee. General state of public health, good. Cholera was reported in one village in Kurjut.

CORONERS INQUESTS

KILLED BY THE ACCIDENTAL IGNITION OF FIRE WORKS.—An inquest was held on the 10th inst. at the Ramsejee Jejeebhoy Hospital, upon the body of Kadder Bebee. Sheik Ismael a colee, deposed to the deceased being his wife, she was in the habit of bringing home materials and making fireworks. On the morning of Saturday last, she brought them as usual; at about 7 A.M. he left house to go to work, on his return he was informed that his wife had been taken to the Hospital in consequence of burns received while filling squibs; he saw the deceased at the hospital, and remained with her until her death, which occurred on the morning of the 10th inst. Hanniba Beo, was engaged by deceased to assist in the making of fireworks, and at 9 o'clock on the morning of Saturday, while the deceased, witness, and one Sillor Bebee were filling squibs, an explosion took place from the powder with which they were filling; the pan from which witness and Sillor Bebee ran away and whilst deceased was engaged in extinguishing the fire caused by the explosions, one Mirambee, daughter of Sillor Beebee, and one Lalbee who were close by, were also injured. Mirambee is now in hospital. Sillor Bebee confirmed the above statement. Bhow Mahdoo, Police Havildar, deposed to having an inkling of fire, and found deceased much burnt, she was then sensible and could speak, but she could in no way account for the ignition of the powder, and blamed no one. Witness did not know fireworks had been manufactured by deceased or he would have taken her or her husband before the Deputy Commissioner of Police; they had no licence for making fireworks; deceased got more and more insensible as they neared the hospital, and latterly did not speak at all. Wisram Ramjee Gollory, assistant apothecary stated the nature of the deceased's injuries and was of opinion that she died from the effects of those injuries.

The jury returned a verdict of "accidently killed while manufacturing fireworks without a licence." The Jury recommended the police to make strenuous endeavours to discover such unlicensed workshops, that they may either be suppressed, or subjected to legal supervision and control.

ACCIDENTALLY KILLED.—An inquest was held on the 11th, at the European General Hospital, touching the death of Joseph Maunder, late Railway Guard of the G. I. P. Railway. Henry Baker, said. "I am a Guard of the G. I. P. Railway; the deceased was also a guard in the same employ. Yesterday I took down a goods train from Bombay to Kurjut, and was there about 5 o'clock, at which time I saw deceased alive and well; he was about to proceed to Campoolee in charge of the Bombay 2-30 P.M. down train. Immediately after this train had left I saw the body of deceased being borne back to the Station by porters; he was quite insensible; I kept him there till the Bombay up train came and put him into it, coming on myself as guard in charge. Deceased died as we reached Narel. Deceased never spoke; there was a severe wound on the back of the head. I cannot form any reasonable conjecture how deceased came by his death, and from enquiries which I made on the spot, I do not think any one saw the accident. There are different ways by which one could be killed by a moving train, and I am of opinion that this must have happened by the motion of the train in some way; deceased was well known to me as a man of steady and sober habits." Thomas Rhodes deposed as follows "I am a guard on the G. I. P. Railway; I was second guard of the 2-30 P.M. down train from Bombay with deceased; I saw deceased last alive and well yesterday afternoon at Kurjut and at the time of our leaving that for Campoolee, deceased gave me the 'all right' signal, and our train went on until we were stopped at Padsiderry by the pointsman, who reported the head guard missing; the deceased was a most careful and temperate man. I have no knowledge of how he came by his death and cannot account for it in any way; after being stopped at Padsiderry and finding deceased missing I took charge of the train to Campoolee and brought it back to Kurjut; when I reached there I saw the deceased alive but quite insensible; at Narel I found him dead.—" A Verdict was returned of "accidentally killed."

ALLOWANCES TO WITNESSES IN CRIMINAL CASES.

IN suppression of former Rules on the subject, the Honorable the Governor in Council is pleased to direct that the following rates of subsistence money and travelling allowance be granted to witnesses in criminal Cases :—

1. European and East Indian witnesses in the Mofussil, when summoned by a Criminal Court to give evidence in heinous cases, are to be allowed their actual expenses for carriage when the same are not in excess of 6 annas a mile. They are also to be allowed a sum not exceeding 2 Rupees 8 annas a day for subsistence if they demand the same.

2. European and East Indian witnesses coming from the Mofussil to attend trials at the High Court, are to be remunerated as follows :

1st Class.—Each person coming under this class to be allowed 8 annas a mile as travelling expenses for himself and a servant; 5 Rupees a day, as Hotel allowance while in Bombay; and 2 Rupees for carriage hire for each day he may have to attend the High Court.

2nd Class.—Persons under this class to have their actual travelling expences; 3 Rupees a day as board expenses in Bombay, and 1 Rupee palkee hire for each day of attendance at the High Court.

3rd Class.—Persons of this class to have their actual travelling expenses, and (1-8) one Rupee eight annas a day as boarding allowance.

3. The Magistrate or other authority who sends a witnes to the High Court shall determine to which of the above class he belongs.

4. As a general rule, Native witnesses of the better class as Patells, Panderpeshas, Merchant's, Vakeels, and persons of corresponding rank, as well as all witnesses who are in no way concerned in the case in which their evidence is given, but whose evidence is required for furthering the ends of justice, (such as attesting witnesses to depositions and inquest reports, provided they can read and write), are to be allowed 6 annas a day as subsistance money, and they are also to receive railway and other travelling expenses that have been actually incurred by them, provided the same be reasonable,

5. Native witnesses of the class of cultivators and menials, who would not, under ordinary circumstances, voluntarily incur any expence on account of special lodging when away from home, are to be allowed subsistence money at the rate of 4 annas a day, and are also to receive Railway and other travelling expenses actually incurred by them, provided the same be reasonable.

6. Peculiar cases (that is cases not coming under the operations of Rules 4 and 5) are to be dealt with according to their own merits, and at the discretion of the Court from which subsistence money or travelling allowance is demanded.

7. No witnesses are to receive subsistence money or travelling allowance, unless they have been summoned or otherwise ordered by a Magistrate, or a Moonsiff, or a Court of Session to attend at the Court before which their evidence is required.

8. When a witness lives in the same town or village in which the Court, before which he is required to give evidence, is situated, the Court may award him such sum, not exceeding four annas a day, as may compensate him for any loss he may have incurred by attendance upon the Court.

12th November 1863.

BENGAL.

CHERRA.—The only news from Cherra is, that one of the leaders in the late rebellion, who had all this while resolutely held out in the jungles, has at length been induced to surrender to Major Thelwall of the 21st P. N. Infantry, on condition that his life shall be spared.

We are happy to be able to add, the cholera has all but disappeared again from Cherra and the neighbourhood, though there is every reason to fear that it is raging with unabated virulence in the interior of the hills. The weather is described as being very fine and the cold increasing every day.—*Dacca News, Oct.* 31.

LOCUSTS.—Dacca was visited by a swarm of locusts on Monday the 26th instant, at 3 o'clock in the afternoon. After hovering over the town in large and densely crowded circles, they settled down for the night on the trees. On the following morning, they were up early and beg n their depredation in our flower gardens and among our incipient cold-weather vegetables; then filled the air again with their dense swarms, and retired in a north-easterly direction They came from the west. On the morning of the same day on which they made their appearance here, we received a letter from Cherra telling us that they were, at the time the letter was being written, passing over that station. The letter was dated the 22nd instant. They passed over Cherra in a south-easterly direction, and may be the same swarm that looked in upon us. Their visit to Cherra is spoken of as being altogether unprecedented. Not even the oldest inhabitant,—and people are remarkable for their longevity in the hills,—remembers ever having witnessed a flight of locusts. The case is different with Dacca, where middle-aged men remember having seen a similar swarm when they were little boys; that is, we suppose, some thirty or thirty five years ago. These locusts have been travelling almost the entire breadth of the continent, and are still moving eastward. They left us yesterday afternoon and went in the direction of Naraingunge. They will probably find their way into Comillah where the damage to the rice-crops will be considerable, and into Cachar, Chittagong and Arracan. Fortunately for Cachar, the tea leaves intended for manufacture have all been picked by this time, and the plants, if they are visited by the locusts will have recovered from the attack before the manufacturing season recurs, otherwise the planters would have reason for grave apprehension,

But the rice crops of all the eastern districts are in jeopardy; and Chittagong and Arracan will suffer. The swarms however may yet find their death in the Bay of Bengal whither they may be driven by the northerly breezes that prevail at this season of the year. The creatures are some of them of considerable size, measuring from two to two and a half inches in length. Their bodies are of a dark red colour, and the wings of a dark amber hue, with black spots. We shall yet hear of the devastations they have committed. There can be no doubt that their presence will be felt in the high price of grain.

After writing the above, we received the following letter from Naraingunge, dated the 27th instant. It would appear, from what our correspondent says, that the swarm did not remain long enough at that place to do any very considerable damage :

TO THE EDITOR OF THE DACCA NEWS.

SIR,—Perhaps it may interest you or some of your readers, to know that a flight of Locusts passed over this place at four o'clock this afternoon, and hear that some made their appearance in Dacca yesterday and committed sad havoc. The flight of the main body, which was steering due North, did not last longer than three or four minutes, completely blackening the air during that time but the outsiders and stragglers, that escaped falling victims to the terrible voracity of crows and minahs in the neighbourhood, spread themselves in all directions on the trees and in the paddy fields, where they seem to be enjoying themselves, in spite of the noise made by the natives trying to turn them out. Those caught measured from two to three inches in length of body.—Yours faithfully,

Naraingunge, 27th October 1863.—*Id.*

MEMORIAL TO THE REVD. DR. DUFF.

CALCUTTA, 10th October.

SIR,—We earnestly request your co-operation in the object of the accompanying Resolution, which was passed at a meeting held at the Bishop's Palace in this city, on the 21st ultimo.

A simple statement of the facts, will recommend our appeal more than the most elaborate arguments.

Dr. Duff was ordained by the Presbytery of Edinburgh in 1829, on which occasion Dr. Chambers presided as moderator; and he arrived in India in May 1830, after a voyage of no common peril and hardship. By the peremptory orders of his physicians he is now about to return to Edinburgh, broken in body, but unbroken in spirit, to recommence his labors for India in a different field.

The natives of Calcutta and its neighbourhood, had at the time of Dr. Duff's arrival, begun to appreciate the advantages of European knowledge. The craving for English education was intense, and a liberal curiosity pervaded all classes. Dr. Duff had the sagacity to see how this state of things could be turned to the advantage of his Master's cause. The natives asked for instruction and he gave them Christian instruction They were animated with the favour of a first love for literature and science. He associated this feeling with an interest in Christian truth. He was sensible of the privilege of educating the youth of a heathen nation, and saw that the under-crop must soon become the entire growth. The first service performed by him therefore was, that he confirmed the alliance between education and religion; and extended it to the liberal education of the upper and middle classes, so in every country are the leaders of the rest of the people.

But Dr. Duff's early labours went much beyond this. After their emancipation from idolatary, the liberty of the first cultivators of the new letters soon degenerated into license, and a school of genuine Atheism prevailed, which was distinguished by its intellectual activity, and zealous propagandism. Devout Christians stood aghast, and did what they could in the way of antidote, by republishing Watson's Apology for the Bible, and books on the Evidences of Christianity. But Dr. Duff stood forth in his Master's name, and challenged Antichrist to meet him in the fair field of reason and argument. The youngmen who believed all religions to have been invented for interested purposes, and regarded Christianity as obsolete rubbish, in common with Hinduism, and Mohomedanism, laughed this attempt to scorn, and came boldly to the encounter, confidently expecting an easy and decisive victory. Greatly to their surprise they soon found that they were overmatched, and after a few more free conferences they retired discomfited from the field.

This was the turning point in the history of Christianity in the East. The important fact became apparent to people of all classes that Christianity could not be refuted, which is only a short step from believing that it is capable of being proved. Even the orthodox Hindus felt obliged to Dr. Duff for humbling the pride of his young antagonists, for they had no desire that their children should grow up as infidels, (Nastika) and instinctively preferred that they should be imbued with religious sentiment, even if that sentiment inclined them towards Christiaanity. As for the young men themselves, the full result has yet to be seen, but some of them have become ornaments of the Church of Christ, and they have as a class treated Christianity ever since with respect. Their names is also inseparably linked with those who in the past generation argued out the great issue between the oriental and accidental basis of popular education. Lords William Bentinck and Maculay would hardly have felt themselves strong enough to pass the famous resolution of the 7th March 1835, had it not been for the powerful impression which Dr. Duff's advocacy of English education produced upon the public mind.

Another crisis of Indian education occurred in 1853. It was strongly argued by many persons that it would be neither just to the Natives, nor for the advantage of the cause that religious instruction should be given in Schools supported and managed by Government; but on all hands it was deeply lamented that the best portion of the population was growing up without a knowledge of true religion. This thesis was exhausted in a remarkable volume of evidence given before the Committee of the House of Lords, on the renewal of the charter of the East India Company, in which Dr. Duff performed his full part. The result of this volumes after it had been worked up by Mr. Baring, and revised and adapted by Sir Charles Wood, became the celebrated despatch of 4th July 1854, the Charter of Indian Education. Dr. Duff had, as has been shown, married education to religion. He now largely assisted in rendering it passible for the State to practice religious education. The basis of the despatch of 1854 is the grant-in-aid system, whereby the claims of equal justice and religious freedom have been reconciled with the demand for popular instruction.

Still more recntly Dr. Duff's name has been connected with another great educational movement. The Calcutta University has been now established for some years; its influence for good in all English Schools in Bengal, and in Northern India, is fully acknowledged, and the fruits of its labour long carried on in the face of numerous disadvantages and obstacles have, become visible in the spirit of enquiry, in the desire for useful knowledge, and in the search after truth by which so many of the natives of Bengal are now actuated. From the very foundation of this University Dr. Duff has been an active member of its Syndicate or executive council, and there is no doubt that the measure of success which it has attained is largely owing to his zeal, experience, and practical wisdom. On receiving his resignation a few months ago, the Syndicate recorded, in grateful language, their high estimate of the value of his services: and the resolution which they passed was followed by the yet stronger testimony to his great merits born by the Faculty of Arts, when they met to elect his successor.

According to Dr. Duff's view all truth is mutually supporting, and friendly discussion on subjects of common interest prepares a favourable reception for matters of deeper import. On this principal he consented to be elected President of the Bethune Society, where he charmed all classes of the community by his varied stores of his knowledge, and eloquence; and introduced without offence, as part of the field of free discussion, several topics of a Christian character. There has lately been held a meeting of this Society, of which every Englishman may justly be proud. The audience was composed of three or four hundred young natives, who had been educated in English literature and science, thoughtful, intelligent, and open to everything worthy of thing that might be said. The speeches were made in excellent English, by several of the leading native gentlemen of Calcutta, of every shade of religious opinion; and all the proceedings were conducted according to our English forms. The meeting was presided over by a Rajah, who is a large native land-owner. The object of the assembly was to express the gratitude of their nation to an English gentleman, who by his talents, genius; they felt themselves honoured by the circumstance that a man whose talents would have placed him at the head of any profession he might have adopted, had devoted himself during long weary years, to their instruction. But the greatest charm of his character in their eyes evidently was the freedom of mind with which he had always been prepared to enter upon any discussion by which truth might be elucidated, by any intellectual or moral prejudice mitigated. His was no half sided Christianity. He endeavoured faithfully to follow in the footsteps of Him "who spake as never man spake," and who "went about doing good, and healing all manner of sickness and all manner of disease among the people." Thus Dr. Duff's has a double claim as a great philanthropist, and a great educator, has made a deep impression on the people of this country. They are ready to unite with Englishmen in testifying their affectionate respect for this great Missionary.

By what combination of excellent gifts Dr. Duff has won from all classes, and both races, this respect and admiration, is perfectly well known to the community of Calcutta; and, more or less to all who are interested in native progress. He brought to his work great learning and genuine piety, a store of human and of divine knowledge; powers of reason and argument capable of confuting or convincing the sceptic; eloquence, impassioned and earnest, rich in illustrating, and copious in style; a marvellous power of attracting and retaining the goood will and confidence of natives of all classes, and ages; unwearied and unselfish zeal and devotion; and the most marked singleness of purpose and heart.

How then can such rare merits be worthily commemorated? The Memorial must be public, so that it may be seen by all. It must be permanent, so that it may last for all generations. It must be an object of beauty, so that it may give pleasure to every eye, and may help to form the public taste; above all, it should be as far as possible, a true representative of the life and actions of the man who is thus commemorated.

It has been determined to form what the French would call a grand "Place" in the heart of the city of Calcutta. The Medical College Hospital, a stately building, which would be an honor to any capital in Europe, is already there. In connection with this building a new University, a new Presidency College, and a new Medical College are to be erected. It is now proposed that a Memorial Hall should be constructed in honor of Dr. Duff between the Presidency College and the Medical College; for which purpose it is hoped that the Government will give the ground, and that sums will be raised by private subscription, sufficient to provide a building worthy of the object.

The purposes to which the Hall will be appropriated, are stated with other particulars in the annexed resolution; and it has been suggested that the beautiful temple at Nismes, known as the Maison Carree, would furnish an admirable model for such a building. If the subscriptions are large enough, this temple may be reproduced in marble, otherwise the hall must be of plastered brick, like the existing public buildings of Calcutta.

Those who know how difficult it is to combine utility with benefit of design in monuments, will be surprised and pleased at the suitableness of the one suggested There could not be a more correct outward representation of Dr. Duff's life and labours than this will be. It will in a manner be a perpetuation to future generations of the peculiar line of usefulness which he pursued.

The Committee appointed to carry out this design trust that you will circulate this letter and Resolution among the Members of the European and Native community around you, and that you will use your influence to raise subscriptions commensurate with the object of the memorial.—We have the honor to remain, Sir, your obedient servants,

Joseph Mullens, D. D., H. W. J. Wood and Khetter Mohun Chatterjee.—*Secretaries*

THE JUNGLE MEHALS.

(*Indian Reformer, October* 30.)

WE have been favored with a printed copy of the statistical and geographical Report on the District of Bancoorah by Lieutenant Colonel Gastrell, Revenue Surveyor, published by the Government of Bengal. It is a very interesting paper and very ably drawn up. The amount of useful information embodied in it, the simple and lively style in which it is written, and the local knowledge it evinces, must obtain for the Report a high place in the estimation of the public than is usually assigned to similar productions.

After giving the geographical position and area of the District, and detailing its revenue, judicial and criminal Divisions, Colonel Gastrell gives an account of the climate of the county. It is much drier and healthier than that of Eastern Bengal. During the summer months which extend from the middle of March to the beginning of June hot westerly winds prevail, and the heat in the day is very excessive, the mercury in the Thermometer standing as high as 110° to 115 Far, under shade. Towards evening a fine cool breeze blows from the south and lasts throughout the whole of the night. This braaing coolness of the night contrasts pleasantly with the intense heat of the day, and conduces greatly to the mitigation of human suffering and the promotion of human happiness. The North-Westers, which occur frequently during this period, are characterised by a superabundance of thunder and lightening and the minimum fall of rain. The climate during the cold as well as the rainy season is healthier and more pleasan than that of other parts of Bengal in those seasons of the year. The latter season commences from June and terminates about the middle of September. The south and eastern parts of the District are low and flat, and resemble the ordinary paddy lands of Bengal, whilst the country towards the north and west gradually rises and becomes undulating, rocks shooting out here and there. We regret to learn that the cutting down of large forest trees in the central parts of the District has told disadvantageoul yon the productiveness of the soil, converting fertile lands into a barren wilderness "The unrestricted clearing of the jungles has had great influence in decreasing the annual amount of rain and impoverishing the country." The soil of the low lands and the valleys is of two sorts *viz.* "sali" and "sonah" "or poor and rich. The cultivation of the sali" is exclusively restricted to the coarser kinds of dhan *(rice)*. In the sonah" all kinds of crops are grown. It is customary to plough the "sali" soil four times before sowing the seed. If manure of any kind be available a small quantity is worked in at each ploughing. The common manure used is that obtained by scraping the bottoms of tanks and reservoirs in the valleys when such happen to be near at hand. The latter, impregnated as it is with the ashes of the burnt uplands, is considered very good manure." We find in the Report a detailed acenunt of the principal trees and plants found in the District, and of their medicinal properties. And this account is preceded by an elaborate description of the geology of the Province. The district produces chiefly rice, mustard, teel, sugarcane, indigo, pawn, cotton, garden herbs vegetables, s chillis &c. The system of subletting lands, which lead to the intervention of several middlemen, each of whom looks to his own profit, between the proprietor of the soil and the cultivator; the high interest at which the latter is obliged to borrow money from the Mahajan or money-lender, and we may add the general character of a Zemindar's dealings tell heavily on the financial as well as on the social condition of the Ryot. The rate of remuneration for labor is extremely low, which treatment is the cause of the general poverty, uncomfortable and embarrassing. "Temparory laborers are generally paid by the natives in kind; they receive a little dhan, moong dhall, tobacco, and one small measure of mustard seed, the value of the whole being about 1 or 1½ annas—barely enough in fact, to keep body and soul together."

The Report contains an account of the inundations of the river Damodar. The sudden rise of its waters and the over-flowing of its banks, as also the extreme velocity of the current sweeping away every thing before it, and carrying destruction in its train, have been the ruin of many villages.

We end with the account given of the origin and rise of the Vishnupur dynasty. When a man born in the lap of poverty becomes in the course of time the founder of a kingdom, the oriental mind never fails to connect the incident with a snake or two spreading out their hoods over the face of the future king whilst lying under the umbrageous shadow of a tree. The boy or youth is in the generality of instances, carries on the occupation of a cow-herd.

The Hindu population in the district exceeds the Mahomedan in the proportion of nine to one; but the former are principally composed of low castes—poverty being the chief characteristic of the inhabitants. The tone of morality is low, and the people are greatly addicted to drink. To such a degree does the drunkenness prevail that, in the language of the Report, "the food and clothing of the women and children are stinted "to allow the father to drink." What a picture of the "depravity of human nature! Does not such a state of "things proclaim loudly and emphatically the necessity of greater exertion on the part of the rulers of the land in the great cause of the education and enlightenment of the masses of India's population?

THE STATE OF SACHEEN.

(*Surat Friend, Nov.* 1.)

WE directed our attention to the general affairs of this State in our last three issues. This subject is indeed a very grave one—a subject in which the interests and lives and property of thousands are concerned. It is imperatively necessary, therefore, that we should vigorously proceed in our investigation as to the policy which has hitherto characterized the administration of the State of Sacheen. Numerous complaints have unremittingly arose since the Nawab commenced his rule over the seventeen villages that were once confiscated by Government. But these complaints have hardly produced any effect whatever. The conduct of a British subject at Lajpore, details of which we gave in our last, has been the direct cause of the notoriously tyrannical conduct of the Nawab being brought to light. This unfortunate circumstance has undoubtedly excited the indignation of all feeling men. All, whom we meet, are unanimously of opinion that the Nawab is a plague to his people—that he has indeed never for a moment reflected upon his lawless proceeding which is the source of hourly misery to his oppressed subjects. It is needless to state that there prevails an universal desire that Government should appoint a Commission of Enquiry, and deprive the Nawab of his absolute authority in Criminal matters. If such a change takes place, we can say, with perfect confidence, that it will give rise to public rejoicings in every quarter of the State of Sacheen, and the party, or parties who may effect such an unexpected change, will have the satisfaction to mark that their names will ever be fondly remembered, both there and at Surat.

People may rest assured that prudent Officials are ever ready to lend their ears to the honest strictures of the Press, which enable them to do much good to hundreds who possess not the least courage to come forward with their grievances. Such authorities are considered as Heavenly Beings. The several facilities which our present Acting Judge has offered to persons seeking legal redress; his impartial and sound judgment; his penetrating capacities, and his polite conduct towards the governed body, have been impressive in a high degree, and have, we confess, surpassed our expectations. Hence that gentleman has justly turned out exceedingly popular here; and people subscribe with eagerness their names in the petition proposed to be forwarded to Government, praying for his confirmation at Surat as Civil and Session Judge. We trust the Lajpore Case will be thoroughly sifted as not to affect in the least the high opinion which Mr. Pinhey has so deservedly won from the public.

The enquiry of Mr. Pinhey will, we hope, lead at least to such disclosures as may ultimately induce Government to take notice of the Nawab's conduct. We cannot exaggerate the high estimation in which Mr. Pinhey's name will be held if such a result is brought out. There appear apparent grounds for penetrating into the present political affairs of the Nawab; hence the Agent's interference with his characteristic energy will be sufficient to link his name with this favorite. If what we have learnt be true, we feel happy that at length some explanation as regards the murder case has been called for from the Nawab. Every success is heartily wished to this attempt, though late.

We have resolved to unveil fully the variety of modes adopted by the Nawab to extort money from his people, committing each time the vilest abuse of power. From personal enquiries we are able to see that the people are in the greatest fright, lest they should give vent some way or other to their deeply wounded feelings, and escape the Iron Rod of this tyrant-Nawab. But we premise the occasion for Government interference is drawing nigh.

We have come to know after careful investigation, of a case, which is in itself sufficient to prove a great portion of the charges we have brought against the Doomus has, since the last six months, been lodged into the stocks, where he undergoes shuddering tortures. All his property has been confiscated, and his house totally razed to the ground. The family of the man, on becoming aware of the Nawab's rage, quitted their dear home, and sought refuge in an unknown place. If such a step had not been timely taken, they would have surely met the worst fate. Such despotism must have, no doubt, brought an untimely end to many lives.

That he positively countenances immoral and guilty acts, and that he is the very source of terrible losses, which the merchants of this and other places not unfrequently suffer, we are prepared to prove. Instances of this are not wanting. A quantity of silk was shipped in a boat from Bombay, for Dolachund, a great trader of this town. The sickness of the native Captain compelled him to leave his boat somewhere near Nowsary. During his absence the sailors stole silk worth about 1500 Rupees. But having heard that the stolen property was intended to be sold to a Hindoo, who came for the purpose from Surat, the Tindel at once proceeded to Bhimpore, and had all of them apprehended, and taken to the Nawab with the stolen silk. The Nawab appropriated the silk to himself! and extracted a large amount of money from the accused as well as the accuser!—Justice and morality of a ruling power worthy of imitation indeed!

It is generally believed that the native sailors, who are almost all the inhabitants of Bhimpore, have made a bargain with the Nawab that the value of every fourth part of what they steal will be put in his treasury, so these pirates appear to be directly assisted by the Nawab in carrying on their nefarious trade for a number of years. It is useless to comment any further upon the conduct of the Nawab, as the facts will speak for themselves.

If what we have learnt from a reliable source be true, one of the sons of the Nawab must be as heartless as his worthy father, to molest the remains of the dead? He purchased lately a bungalow near the village of Doomus, commonly termed the "Commodore's Bungalow." A European corpse was buried some years ago adjoining it, over which a splendid tomb was erected. None of the former possessors ever thought of removing the tomb except this unfeeling man. He has utterly destroyed it, and lest any remains should be left there, he cleared the ground. We were hunting after the stones of the tomb, which were dispatched secretly to Surat, and came to know that they were lying quite close to our habitation. But unfortunately they were intentionally made away with before we were successful in getting a sight of the inscription engraved on the tomb.

We drop this subject here until we are able to procure our further enquiries.

THE STATE OF SACHEEN.

(*Surat Friend, Nov.* 1.)

WE directed our attention to the general affairs of this State in our last three issues. This subject is indeed a very grave one—a subject in which the interests and lives and property of thousands are concerned. It is imperatively necessary, therefore, that we should vigorously proceed in our investigation as to the policy which has hitherto characterized the administration of the State of Sacheen. Numerous complaints have unremittingly arose since the Nawab commenced his rule over the seventeen villages that were once confiscated by Government. Business Announcements.

TO LETTER PRESS PRINTERS, AND OTHERS —FOR SALE.—
Brass Column and Heading Rules.
2,000 lbs. Small Pica, second-hand, but in good condition.
1 R., Red and Green.
For Terms, &c., apply to the Manager *Bombay Gazette*.

ROSSELET & Co. received per last mail a nice Lot of Meerschaum Pipes, from Rs. 10 to 20, wooden ditto of different shapes and sizes, Rs. 1 to 4.

ROSSELET & Co., have always on hand, a nice choice of Ladies' and Gentlemen's Companions, Pic-Nic ditto, Travelling Inkstands, Portfolios, Portmanteaus, and Cigar Cases, fine French Stationery.

MESSRS. SYKES & Co., Photographers and General Merchants, beg to call attention to a new lot of PHOTOGRAPHIC ALBUMS, elegantly Mounted and beautifully bound, which they have just received.
GLASSWARE.—A few handsome 6 Lights Chandeliers, made either to be suspended or to stand on a Table, some pairs of Stained Candlesticks, of entirely new designs, Jewellery Boxes, Flower Vases, Ice and Fruit Dishes, &c. &c.
Photographic materials of every description, viz., Lenses both for Portraits and Views, Cameras, Baths, Plate Boxes, Morocco and Union Cases, Passepartouts, Gilt Moulding, Frames of all sorts, Stereoscopes of assortment, French Wall Paper, Magic Lantern Slides, and also a stock of Miscellaneous articles.
Hunmum Street.

NAVIGATION, AND LOCAL MARINE BOARD EXAMINATION.

THE UNDERSIGNED (who holds a Certificate (Extra) of Competency from the Board of Trade) having his Mornings from 7 to 10, and Evenings from 5 to 8, unoccupied, is prepared to give LESSONS IN NAVIGATION, and to prepare Candidates for Marine Board Examinations in accordance with the Regulations of the Board of Trade.
Testimonials can be seen on application.
References kindly permitted to :—
Captain J. W. YOUNG, C.B. (late I.N.,) Superintendent Bombay Marine.
Captain W. C. BARKER, (late I.N.,) Master Attendant.
Captain G. T. ROBINSON, (late I.N.,) Superintendent Floating Batteries.
Captain HAYMAN, Shipping Master.
Captain DIXON, Lloyd's Surveyor.
Shipmasters' Chronometers carefully tested and rates determined for them if required.
J. WILLIAMS.
5, Bake House Lane, Fort. Late Master R.N. & I.N.

MR. J. NEUBERG, GENERAL IMPORTER OF ENGLISH AND FOREIGN GOODS,

HAS the pleasure of announcing the receipt, *ex the Naval Brigade* of a large assortment of VERY HANDSOME AND INGENIOUS TOYS, being the finest collection ever imported into this Presidency.
They have been very carefully selected from the best manufactories on the Continent, and will be found to meet the tastes of all who may visit Mr. N.'s Establishment.
Mr. N. has also received a collection of most artistic Earthenware; such as Flower Vases, table Ornaments, &c. &c.
Elegant Frames, for Photographs.
Albums for Carte de Visites.
Violin Bows and Strings.
Table Cloths, Table Napkins, and Towels of the best workmanship.
Mr. N. shortly expects a very extensive collection of Albums Portfolios, Ladies' Companions, Travelling Cases, &c., in great variety, also
Embroidered Slippers, Cushions, &c.
Patterns for Embroideries.
Bronze Goods, such as Vases, Table Ornaments, Paper Weights, Letter Clips, &c.
Also, a few superb Pianos, Harmoniums, and Musical Boxes, from some of the best makers in Germany.
Reading Lamps of established character with German Silver, Brass, and Bronze Stands.
Mouldings for Frames, for Pictures and Mirrors.
Paper hangings, of different colours, for washing and Pier Decorations.
Conservative Specifics for Cholera, Diarrhœa, &c., to effect a quick sale.
Illness of Sole Proprietor unavoidable cause for selling.
Depôt Chemists, 73, Byculla.

HOMŒOPATHIC PREPARATIONS.—Messrs. Leaf & Co. have sent to the undersigned a general supply of Homœopathic Medicines, including Tinctures and Globules; also the Homœopathic Belt for Liver complaints by Headland. TREACHER & Co. (LIMITED.)
Bombay, the Fort and Medical Hall, Byculla.

PONDICHERY CIGARS AND CHEROOTS OF SIZES.

TREACHER AND CO., (LIMITED,) are in receipt of a batch of Cigars and Cheroots, sizes Nos. 1, 2 and 3.

EDULJEE PALLONJEE BROTHERS.
Bombay, April 1863. 40, Medow Street, Fort, Bombay.

DINNEFORD'S PURE FLUID MAGNESIA has been during twenty-five years emphatically sanctioned by the Medical Profession, and universally accepted by the Public, as THE BEST REMEDY FOR ACIDITY OF THE STOMACH, HEARTBURN, HEADACHE, GOUT, AND INDIGESTION, and as a MILD APERIENT for delicate constitutions, more especially for Ladies and Children. Combined with the ACIDULATED LEMON SYRUP, it forms an *agreeable Effervescing Draught*, in which its aperient qualities are much increased. During HOT SEASONS, and above all, in HOT CLIMATES, the regular use of this simple and elegant remedy has been found highly beneficial. Manufactured (with the utmost attention to strength and purity,) by DINNEFORD & Co., 172, NEW BOND STREET, LONDON. And sold by all respectable Chemists throughout the World.
